Bringing balance to cosmetics

TEXTRON

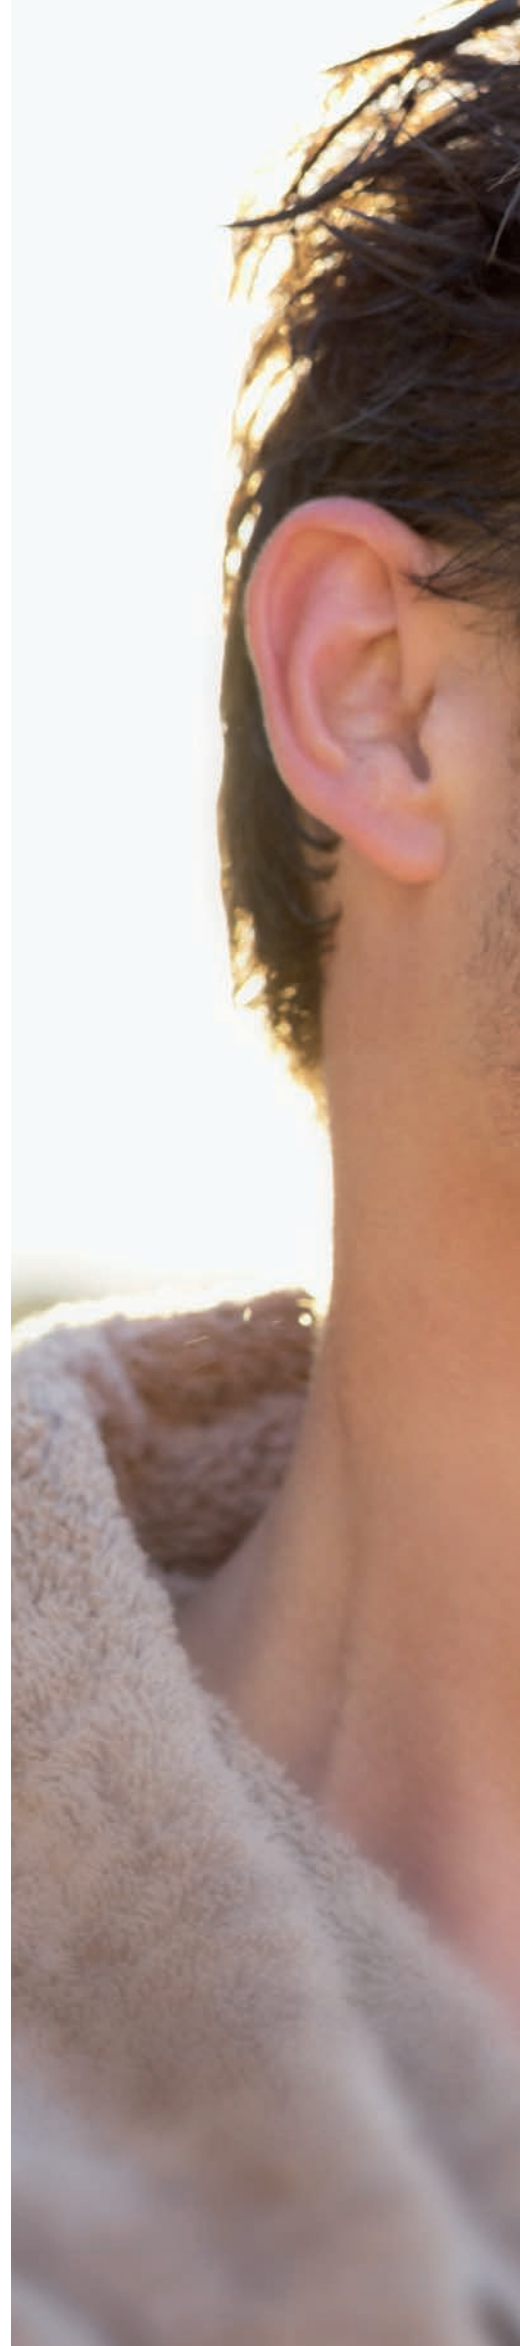

From organic
to highly refined,
from basic oils
to synergistic
and custom-made
formulations.

Textron offers the solution
to every need.

We produce and supply **the highest quality vegetable oils** for the cosmetic sector worldwide, as indispensable ingredients for all sorts of personal care products. From rinse-off to leave-on, ideal for direct application to skin and hair as well.

Virgin oils

Obtained solely by mechanical or other physical means under conditions that do not lead to alterations in the oil.

Organic oils

Produced according to production standards respecting ecological principles. Textron holds Organic Certification for Cosmetics by Ecocert.

Refined oils

Pure natural vegetable oil, thoroughly purified to control the colour, odour, acidity and oxidation of the oil.

Essential oils

Highly aromatic volatile organic oils present in plants. Pharmaceutical and therapeutic potential. Enormous potential as active compounds and wide spectrum of biological properties.

Quality control

At Textron facilities, a fully-equipped laboratory performs **quality control to ensure compliance of organoleptic, physicochemical and microbiological specification parameters**, including fatty acid profiling and oxidative stability testing. Retain samples are stored upon batch production to check any possible later deviation. Re-testing service is also provided.

Pharmacopeia grade

Pharmacopeial grade is available for a large number of refined Textron oils, suitable for Pharma applications and meeting requirements of, among other:

- **European Pharmacopeia** (EP)
 - **British Pharmacopeia** (BP)
 - **United States Pharmacopeia** (USP)
-

Technical & regulatory support

Textron provides **permanent, dedicated and personalized customer care** and post-sales support on technical & regulatory questions.

Natural
plant oils

With carefully selected, expertly balanced and enhanced active ingredients, Evoil® provides the cosmetic manufacturer with the ideal raw materials to base the next generation of personal care products on.

New

Evoil® Hydracare Lightening

Evoil Hydracare Lightening is a novel top-range Skin Whitener **fully developed by Textron**. Based on natural plant oils and vegetable synergetic active principles, it achieves both an excellent lightening and regenerating ability.

New

Evoil® Caress

An optimized combination of lineal esters and long chain fatty acids **isolated from natural vegetable oils**. Its outstanding spreadability makes it an ideally suited massage oil.

Evoil® Spa

Textron's **new line of massage oils** provides a range of aromatherapy experiences, whether used directly on the skin or added to a hot bath. This includes:

Evoil® spa bergamot, Evoil® spa citrus
Evoil® spa lavender, Evoil® spa rosemary
Evoil® spa tea tree, Evoil® spa ylang-ylang

Evoil® Face

- Special range developed for face creams.
- Utilising vegetable oils carefully selected for their **high index of natural unsaponifiables**.
- **Enriched with natural vitamins** to help promote radiant, healthy skin.

Evoil® Body

- Selected range developed for body care.
- Based on **highly purified plant oils** enriched with natural vitamins.
- Provides a **smoother feeling** and better protection for skin.

Evoil® Hair

- Wide range for hair care products.
- Containing **deeply penetrating fruit oils** with a high level of natural nutrients.
- Enriched **with panthenyl triacetate**.

Evoil® AST

- Specially developed to **help prevent the formation of stretch marks**.
- Composed of easily absorbed plant oils and waxes, carefully chosen for their nutrient properties.
- May improve skin conditions such as stretch marks and cellulite.
- Helps **improve the firmness and elasticity** of the skin.
- Enriched with multivitamins.

Evoil® Restore

- **Intensive skin rehydrator** and nourisher
- Prevents skin damage
- Attenuates scars
- Restores normal skin colour

Evoil® JJB Sensation

- Contains multiple unsaturated fatty acids from vegetable oils of the maximum quality.
- **Protects skin from drying out** with special lipid components similar to jojoba oil.
- **Restores physiological lipid barrier** functions.

Evoil® Antiage Skin

- Helps in **preventing and eliminating stretch marks and wrinkles**.
- Rich in Omega-6 fatty acids content and highly compatible with the epidermis.
- Can be used in antiaging treatment for mixed and regular skin types.

Evoil® Skin Perfect

- Chiefly composed of essential fatty acids, needed for cell regeneration.
- Contains vitamin A derivatives, **involved in skin tissue repairing**.
- Gently florally scented, may also serve as a pleasant aromatherapy treatment.

Evoil® Basics

Custom-made oils to improve your formulations.

This product range consists of a series of Evoil®, plant oils in which the basic properties of each oil have been **optimised to obtain greater functionality and stability**.

Evoil® basics have been developed to replicate the classical fatty acid composition of each specific plant or fruit oil without sacrificing any of the **intrinsic beneficial qualities of the oils**.

The physical characteristics have been carefully designed to create a product with minimal colour and odour. The result is a consistent, superior and cost-effective product.
